INTERNSHIP EXPERIENCE

Java Full Stack Intern

Pentagon Space Solutions Pvt. Ltd. | Jun 2025 – Dec 2025

• Developed and tested RESTful APIs using Spring Boot and MySQL to manage user authentication, data processing, and backend operations.

• Integrated React.js frontend with backend services and contributed to Agile development by performing debugging, validation, and performance optimization to ensure application stability.

PROJECTS

Secure Bank Management System

Spring Boot | Spring Security | JWT | React.js | MySQL

• Initially developed the banking application using JDBC with DAO/DTO and MVC architecture, later enhanced by migrating to Spring Boot for improved modularity and maintainability.

• Implemented authentication and authorization using Spring Security and JWT to enable role-based access control and protected API endpoints.

E-Commerce Web Application

Spring Boot | React.js | MySQL

• Built a full-stack e-commerce platform with product listing, cart management, and order processing by integrating React.js frontend with Spring Boot backend services.

• Designed and implemented RESTful APIs for product and order management, structuring the application using MVC architecture to ensure maintainability and efficient database operations.

CERTIFICATIONS

• Java (Basic) - HackerRank

• Java Full Stack Internship – Pentagon Space Solutions (2025)
